

# Belgrade Furniture Fair Now

A representative event in the sphere of design, production and distribution of furniture brings together furniture manufacturers, distributors and professional buyers, designers, engineers, architects and always interested visitors, to see in one place the current trends in this progressive economic branch and quality and functional furniture of all types and purposes.

The leading event of this kind in the region of Southeast Europe is a verified partner in contributing to the growth of the Serbian economy, the driver of woodworking and all related industries.

The construction of a recognizable visual and market identity of Serbia, where domestic wood processing and furniture production are strategic branches of the economy, is successfully presented to foreign customers and business visitors.

As an international gathering and communication platform, it connects a large number of businesspeople, and in addition to companies dedicated to innovation, superior design, quality and functionality of furniture, it also presents young designers who get the opportunity at the fair to exhibit their products on the big stage as part of the **Young Designers Exhibition**.

*Design Talks* - Conversations with designers and architects are part of the fair program that brings together the very top experts from the field of design, architecture, and the furniture industry as a whole.

Every day during the fair, visitors can join the conversations or listen to the experiences of leading experts, manufacturers, consultants and all other stakeholders who participate in the creation of quality products, in the domestic and international markets.

The traditional awards of the Belgrade Furniture Fair – **Golden Key and Fair Key** are awarded to the most successful exhibitors, as a way of emphasizing the highest quality and most innovative solutions, while placing the event and the winners in a credible international context.

At the same time as Fair of Furniture,  
***the International Fair of  
Woodworking Machinery, Tools  
and Production Materials*** is being  
held.

A compatible trade show event that  
contributes with its extraordinary and  
extensive content to the  
understanding and development of  
the production segment of the  
complex furniture industry.

This specialized event has a mission to present the latest technologies, products and services intended for the wood processing industry, and to provide an opportunity for manufacturers, suppliers, experts and all others interested to learn about the latest advancements in this industry and establish business contacts.

The fair serves as a support and financial driver for the entire wood and wood processing industry in Serbia, particularly the furniture industry, as it effectively, originally and purposefully combines the wood and furniture industry with the creative sphere.
