International Fair of Furniture, Equipment
and Interior Decoration and
International Fair of Machines and Tools for
the Woodworking Industry

Where Industry Meets Design

The International Fair of Furniture and the International Fair of Machines and Tools for the Woodworking Industry represent the leading regional platform for the furniture industry, woodworking industry, interior design and advanced manufacturing technologies.

The Leading Industry Event in the Region

As one of the most important events of its kind in Southeast Europe, the Fair actively contributes to the development of:

- ✓ the woodworking industry
- ✓ furniture manufacturing
- ✓ interior design
- ✓ advanced technologies
- ✓ the region's export potential

The event confirms Serbia's importance as a major centre of furniture manufacturing and design.

An Industry That Combines Tradition and Innovation

Today, the furniture and woodworking industries represent a combination of:

- ✓ craftsmanship
- ✓ contemporary design
- ✓ technological innovation
- ✓ sustainable materials
- ✓ efficient production

The Fair follows market developments and serves as a place where new directions in the industry's development are recognized.

A Contemporary Space for Design and Functionality

The Furniture Fair presents:

- ✓ residential and office furniture
- ✓ interior design solutions
- ✓ hotel and hospitality furnishing
- ✓ decoration and lighting
- ✓ materials and finishing solutions
- ✓ contemporary interior design trends

From functional solutions to premium design, the Fair brings together the entire furniture industry in one place.

Design That Shapes Space

Contemporary interiors today represent much more than aesthetics.

Through innovative solutions, sustainable materials and functional design, the furniture industry actively shapes the way people live, work and experience space.

The Fair is a place where current global trends and new creative solutions are presented.

Technology That Drives Manufacturing

Held alongside the Furniture Fair is the International Fair of Machines and Tools for the Woodworking Industry.

The event presents:

- ✓ woodworking machinery
- ✓ production automation
- ✓ CNC technologies
- ✓ advanced tools and equipment
- ✓ software and technological solutions
- ✓ innovations in manufacturing processes

The Fair connects the creative and technological segments of the industry.

The Entire Production Chain in One Place

A distinctive value of the event lies in bringing together:

- ✓ design
- ✓ materials
- ✓ manufacturing
- ✓ technology
- ✓ distribution
- ✓ finished products

The Fair enables professionals to gain a comprehensive overview of the entire industry—from concept to market.

Where Design Is Experienced and Brands Become Business Success

As the most powerful platform for strengthening brands, launching new collections, attracting customers and achieving tangible business results, the Furniture Fair brings together:

- ✓ manufacturers
- ✓ distributors
- ✓ architects
- ✓ investors
- ✓ the hospitality and distribution sector

For exhibitors, participation is more than simply displaying products, it is an opportunity to position themselves where the market is looking and reach end customers in the most effective way.

Where New Ideas Find Their Place

A special segment of the Fair is dedicated to:

- ✓ young designers
- ✓ innovative concepts
- ✓ contemporary materials
- ✓ sustainable design
- ✓ experimental approaches to interior design

The Fair provides emerging designers with an opportunity to present their ideas to a wide professional audience.

A Place of Recognized Solutions

The Fair's traditional awards recognize the quality, innovation and significance of the best products and companies in the industry.

The awarded solutions represent a combination of:

- ✓ design
- ✓ functionality
- ✓ technological development
- ✓ market relevance

More Than an Exhibition Space

During the Fair, visitors have the opportunity to:

- ✓ discover new collections and technologies
- ✓ meet industry professionals
- ✓ explore contemporary trends
- ✓ attend presentations and panel discussions
- ✓ establish business contacts

The Fair becomes a meeting place for industry, design and the market.

Sustainability, Technology and Development

Today, the furniture and woodworking industries increasingly rely on:

- ✓ sustainable materials
- ✓ energy efficiency
- ✓ digitalization of production
- ✓ automation
- ✓ innovative design
- ✓ modern distribution and sales channels

The Fair follows the development of the industry and creates opportunities for its future.

Present Your Products Where the Industry Looks for New Ideas

#TheGivingTreeTable

We invite manufacturers, distributors, designers, technology companies and partners to become part of the next edition of the International Fair of Furniture, Equipment and Interior Decoration and the International Fair of Machines and Tools for the Woodworking Industry.

Where the Industry of the Future Takes Shape.
